Dear Parent, Business, and Community Partners,

We are excited to bring you the details surrounding Worcester Technical High School's 10th Annual Golf Tournament. First, we would like to sincerely thank you for your past support and provide you a school update. This year, we have added two new career and technology programs of study, as well as additional cohorts of students in the Pre-Engineering, BioMed, and Interactive Media programs. Furthermore, the WTHS SkillsUSA Chapter was awarded the 2018 Maryland Career and Technology Outstanding Student Organization of the Year and the 2018 Maryland and National Chapter of Excellence Award. We are of course extremely proud of all of our students, many of whom participate in SkillsUSA and Future Farmers of America (FFA), local, state and national competitions. Ninety-four (94) of the 140 students who participated in the February WTHS SkillsUSA Competition proceeded to the April Maryland SkillsUSA Competition, where they brought home 49 medals. The 22 students who won state gold medals moved on to the National SkillsUSA Competition in Louisville. There, 18 students placed in the Nation's Top 10. Students in the Agriculture program, who participate in FFA, brought home numerous local and state awards earned in a variety of competitions held throughout the year. Finally, WTHS teachers have received 23 Worcester County Public Schools Celebrating Innovation awards during the three years of the program!
